

Research on the Mechanism and Realization Path of the Party's 20 Great Spirit Integrated into the Professional Courses of Colleges and Universities

Chunyan Liu

Liupanshui Normal University, Liupanshui, Guizhou 553004, China

Abstract: To integrate the 20 Spirit of the Party into the professional courses of colleges and universities, it is necessary to clarify its educational value and spiritual connotation, find out the integration point of the course, master the effective education and teaching methods, and comprehensively and systematically promote the 20 spirit of the Party into the textbooks, into the classroom and into the mind.

Keywords: The 20 Spirit of the Party; Professional courses; Teaching effectiveness

Fund Project:

This paper is based on the Teaching Content and curriculum system reform project of colleges and universities in Guizhou Province in 2021, "Research on the Reform of In-depth Assessment and Evaluation Methods of 'Situation and Policy' Course in Colleges and Universities" (No. : 2021283), First-class Curriculum Construction (Cultivation) of Liupanshui Normal University (Mixed online and Offline courses), "History of Ideological and Political Education of the Communist Party of China" (No. : 2023-03-01) phased results.

The report of the 20th National Congress of the CPC clearly pointed out that "who to train, how to train people, and for whom to train people are the fundamental issues of education." The foundation of educating people lies in virtue."^[1] This is the theoretical and operational reference to the era of education. Colleges and universities, as the main position of moral education, have undertaken the important mission and task of learning and implementing the Party's 20 spirit. While learning the Party's 20 Spirit through ideological and political theory courses, they should also deeply integrate the Party's 20 spirit into the courses of various professional disciplines, and vividly deepen and sublimate the curriculum ideology and politics, so as to implement the fundamental task of moral education and human development.

1. The connotation and value of the Party's twenty great spirit of education

Only by comprehensive and systematic in-depth study can we fully, accurately and comprehensively grasp the spirit of the Party's Twenty Great Congress. Knowing what it is, what it does, and how to do it lays a solid foundation for implementation."^[2] The spirit of the Party's 20 National Congress is the clear banner of school education in the new era and the fundamental direction to cultivate morality and cultivate people.

1.1 The connotation of the Party's 20 Major Spirit

The theme of the report to the Party's 20th National Congress clearly answers the major questions of what banner to hold, what road to take, what state of mind to take, what historical mission to undertake, and what goals to achieve. Socialism with Chinese characteristics has been the theme of all the Party's theories and practices since reform and opening up began. It has unique advantages in adapting to the development and progress of China and The Times. In the new era, we must continue to hold high the great banner of socialism with Chinese characteristics, firmly establish confidence in the path, theory, system, and culture of socialism with Chinese characteristics, and further enhance the consciousness and firmness of learning and implementing it, so as to internalize

and externalize it in practice, and ensure that the cause of the Party and the country always moves forward triumphantly in the right direction. The moral education in colleges and universities should take the Party's 20 great spiritual connotation as the core content of moral education in the two-way integration of ideological and political curriculum.

1.2 The educational value of the Party's 20 Great Spirits

The spirit of the 20th National Congress of the CPC is deeply integrated into the professional courses of colleges and universities, which is a vivid embodiment of the second basic law of education: education must adapt to the development of society (promoting social development is the directional law of education). The spirit of the 20th National Congress of the CPC is deeply integrated into the professional courses, which vividly shows the content of moral education, deepens the goal of moral education and sublimates the value of moral education. Only in this way can we truly "implement the Party's education policy, implement the fundamental task of moral education, and cultivate socialist builders and successors with all-round development of moral, intellectual, physical, aesthetic and labor".

2. The Party's 20 spirit into the main points of professional courses

2.1 Strengthening education on mission responsibility in the New era

"We will work together to build a modern socialist country in an all-round way and advance the great rejuvenation of the Chinese nation." It is the common aspiration of the Party, the country and the people in the new era, and the mission of The Times entrusted by history to the new generation. In the education and teaching of professional courses, it is necessary to integrate the important historical process of the modernization of Marxism in China and explain clearly how generations of Chinese Communists have carried forward the great banner of Marxism, and how they have combined Marxism with China's reality to explore the Chinese road and create the Chinese miracle. The great achievements made in the natural sciences and humanities cannot be separated from the Party building spirit of "self-strengthening with confidence, integrity and innovation, and courage and perseverance". Young students should strengthen their ideals and convictions, learn the truth from the Party's century-old history, and draw wisdom and strength to move forward. Teachers should deeply understand that the integration of the Party's 20 major spirit into professional curriculum education and teaching is to better help them hold the baton of The Times.

2.2 We strengthened education on the situation and tasks in the new era

In the face of the sudden outbreak of COVID-19 in China, the turbulent changes in the situation in Hong Kong, the separatist activities of the "Taiwan independence" forces, and the serious provocations of external forces interfering in Taiwan affairs; The international situation is changing rapidly, especially in the face of external blackmail, containment, blockade and maximum pressure. The Party, the state and the people "demonstrated their firm will to defy power, safeguard national dignity and core interests in the struggle, and firmly grasp the initiative in China's development and security." "In the past ten years, we have experienced three major events of great practical and far-reaching historical significance to the cause of the Party and the people: first, the centenary anniversary of the founding of the Communist Party of China; second, socialism with Chinese characteristics has entered a new era; third, we have accomplished the historic task of poverty alleviation and building a moderately prosperous society in all respects, and achieved the first centenary goal." The domestic and foreign situation in the new era, the national development trend and tasks are the second major points that professional curriculum education and teaching need to explain clearly to students. The historic achievements and historic changes achieved in the development of the cause of the Party and the country should guide students to learn to sum up historical experience, think and form inspiration, and further understand the Chinese modernization and the major task of building a modern socialist country.

3. The Party's 20 spirit into the professional curriculum path

3.1 Optimize curriculum ideological and political theory teaching

The education and teaching of professional courses should put the Party's 20 spirit "into the textbook, into the classroom, into the minds of students", teachers must first study the Party's 20 report deeply, understand the Party's 20 spirit. Starting from the teaching design, in the teaching syllabus around the Party's 20 great spirit, scientific and reasonable arrangement of curriculum ideological and political goals, main content, teaching methods, assessment and evaluation; In the specific implementation, combining online and offline education and teaching resources, enriching learning and expansion in class and after class, combining personal self-study with team discussion, identifying the entry point of the relationship between the Party's 20 major spirits and professional course content, such as "clear water and green mountains are gold and silver mountains" highlighting environmental protection law, environmental protection concept, environmental protection value, etc. Promote the Party's 20 great spirit in the course of ideological and political

vivid development, value guidance.

3.2 Expand the course ideological and political practice teaching

The Spirit of the Party's 20 National Congress is a vivid manifestation of the transformation of Marxism from theory to practice, and an important theoretical achievement of adapting Marxism to Chinese times. In the study and implementation of the Party's twenty major spirits, the major disciplines in colleges and universities should not only master the basic theory and guide the values, but also turn to practice. Students should be clear about the direction of The Times and learn to think in combination with professional practice. Through the organic integration of the first class and the second class, students should carry out learning and education in student activities, social practice, competitive competition, etc. At the same time, through theoretical basis or practical application research. Learn to deeply understand the connotation and essence of the Party's twenty great spirits.

3.3 Ensuring the effective implementation of curriculum ideology and politics

The integration of the Party's 20 Great spirit into professional curriculum education and teaching is an important content of moral education in colleges and universities, and an important way to "implement the fundamental task of cultivating morality and people" in the new era. In order to further study and implement the spirit of the Party's 20 Major Congress, schools should give priority to developing corresponding systems, creating a learning atmosphere, optimizing the learning environment, and giving adequate guarantees in teacher training, learning resources, hardware and software facilities, assessment and evaluation, so as to improve the moral education system of colleges and universities, and organically integrate ideological and political courses with curriculum. To promote the spirit of the Party's 20 major into the professional curriculum education and teaching effectively, to achieve the curriculum ideological and political era should be the meaning. Optimize the teaching management mode of course education, and form a teaching management mode of "teaching guidance materials + collective lesson preparation + supervision feedback" led by famous teachers to comprehensively improve the effectiveness of course teaching.
