Introduction

Taking the students’ patriotism education, inheriting the red gene and utilizing the education position, integrating into the whole process of school education and teaching helps young students to consciously establish great beliefs, to gather the ideological consensus of young students with patriotic education, to make it become the ideological driving force for young students to grow up. Through patriotic education among college students, inheriting the red gene, to foster and practice core socialist values, which make the young students understand the perception, contribute to the great rejuvenation of the Chinese nation.

1. To build a patriotic education mechanism

1.1 Standardize the system construction and improve the working mechanism

It is necessary to establish and improve the unified leadership of the party committee the relevant departments of the leadership system and working mechanism, strengthen counselors, academic teachers, professional teachers, student cadre team construction, optimize students’ patriotism education and ideal faith education system, clear the student patriotism education and ideal faith of specific tasks and requirements.

1.2 Carry out thematic education and cultivate the feelings of family and country

Through the class meeting, class party, social practice, theme, literary and artistic creation, community and campus culture activities such as the socialist core values education and patriotism education, party history education, the ideal faith education, the rule of law and moral education, education, the school rules civilization literacy education, school spirit style education, thanksgiving integrity education, basic quality education and other forms of theme education activities, under the flag of patriotic brand to preach, further create a good ideological education atmosphere.

1.3 Carry out the Four History Education to inherit the red gene

We will carry out the Four History Education on a regular basis, fully tap into the patriotism education genes of major anniversaries and major historical events, and continue to carry out ideological and political education themed activities on historical anniversaries and major time nodes. In particular, Tomb-sweeping Day, National Day, Martyrs’ Day, National Memorial Day, etc., constantly innovate ways to further improve the effectiveness of education through field visiting and learning, stimulate the enthusiasm of Peihua’ youths to love the school, gather the strength of struggle and enterprising, and cultivate the spirit of national rejuvenation.

1.4 Carry forward the traditional culture and continue the cultural blood

We should inherit and carry forward the fine traditional Chinese culture, and actively guide the Peihua'youths to understand the long history and splendid culture of the Chinese nation, draw nourishment and wisdom from the history, and enhance national self-esteem, self-confidence and pride. During the Spring Festival, Lantern Festival, Qingming Festival, Dragon Boat Festival, Qixi Festival, Mid-Autumn Festival, Double Festival, carry out colorful, positive, healthy and valuable folk culture activities, guide Peihua'youths to understand Chinese culture, culture, and combine New Year's Day, May Day, May Day, Youth Day, to stimulate the patriotism and collectivism spirit of college students.

1.5 Strengthen the ideological and political network, adhere to the correct guidance

It is important to make full use of the advantages of the Internet, adhere to the correct public opinion to guide people, reflect the correct value orientation and moral requirements in education and teaching, service guarantee, cultural activities and other fields, through the students' ideal and faith education and moral cultivation education through the network platform, to increase the culture small green media studio, strengthen the operation of class WeChat public number, management, activate class network education, build network matrix, carry forward the theme, stimulate the positive energy, make positive network culture play into weathering, weathering the important role of weathering.

2. Ways to implement patriotism education

2.1 Play the role of the main channel through classroom teaching

Integrate patriotism education and ideal and faith education into the whole process of classroom teaching. We should strengthen the quality construction of ideological and political courses, constantly improve the quality of classroom education and teaching, and enhance the attractiveness, persuasion and appeal of teaching. We will strengthen the construction of ideological and political theory teachers, to fully mobilize the enthusiasm of teachers to participate in the patriotic education work, to guide the majority of teachers to set up the lofty standard of learning to be a teacher, behavior in the world model, with profound professional knowledge and excellent personality charm influence education students, to achieve the combination of teaching and education.

2.2 Play a leading role through the party and league student organizations

We will further strengthen and improve the training and development of student Party members, pay attention to the training of active applicants in peacetime, strengthen the education of party spirit cultivation for student Party members, and give full play to their leading and pioneering role in the education of patriotism and ideals and beliefs. It is important to promote party building and league construction, strengthen guidance and support for the work of the Communist Youth League at the grass-roots level, constantly expand the coverage and influence of the league organization, constantly enrich and innovate the content of theme youth League Day activities, and deepen students' patriotism education and ideals and beliefs with theoretical study and practical actions.

2.3 Play a guarantee role through the full participation of all staff

It is necessary to carry out the leading cadre contact class system, mobilize all forces sinking line, with student work, party committee, party committee propaganda department, the administration management center as the lead department and other functional departments, secondary college work together, covering property, cleaning, security, catering, dormitory administrator and other groups, enrich and expand the content and form of patriotism education, helping the students to meet the learning and living environment in the middle grade, improve the practical work ability and ideological consciousness, build the foundation of patriotism education and ideal faith education, solid integrity education and gratitude education, consolidate the education effect. All-directional online propaganda lead, school media focus on students' patriotism education and ideal faith education theme, innovation methods adapt to the differentiation, differentiation trend, publicity ground, angry, popularity, emotion, depth, temperature, vivid good patriotic story, vigorously spread the mainstream values, adhere to the correct public opinion direction.

2.4 Play a traction role through the second class credit management

Through the curriculum system of wide coverage and full content modules, we can truly and objectively record the patriotic education theme activities, campus cultural activities, work and the achievements of the students' professional morality and comprehensive performance during the school, to help students correctly understand their own advantages and make up for their own deficiencies. Through the second class report card fully display students 'achievements in the university ideological and moral

character, ability training, social practice and other aspects, build an effective connection platform among students, schools and society, further stimulate students' enthusiasm for learning, and strengthen the education foundation of college students' patriotism and ideals and beliefs.

2.5 Play a guiding role through advanced typical demonstration

We will carry out extensive learning activities from advanced models to guide the Peihua youths to transform their admiration and touching into practical actions of serious study, training skills, doing business, and loyalty to the country. Vigorously promote the model of The Times, moral models, the most beautiful people and good people around, inspire and inspire people with the power of the example; make full use of the senior system, to help lower grade students to adapt to the change of learning and life state, strengthen academic counseling, psychological counseling, personal planning guidance, mobilize students to learn, make their active growth and promotion.

2.6 Play a linkage role through home-school cooperative education

The school gives full play to the leading role of collaborative education, timely communicates with parents about the situation of students, to exchange educational information and witness the growth of students together, do a good job in collaborative education, so that parents can send their children to school, students can plan their own study and life, and let the school devote itself to the whole process of talent training, to carry out various forms of activities, guide the family with correct moral shape children good mind, consciously inheriting the Chinese filial piety, gratitude parents, gratitude elders love, develop filial piety parents, respect elders good quality, let family members influence and improve together, contributing to the society in the process of improving spiritual realm, cultivating civilized fashion.

2.7 Play a demonstration role of brand through cultivating quality activities

Adhere to carry out the micro-class under the national flag and the micro-lecture brand activities under Peihua Youth-Red Star. Every Monday, the representative of the Party Secretary of the secondary college, the excellent counselor and the student representatives will attend the solemn flag raising ceremony and carry out the micro class under the national flag. Every Friday, the outstanding backbone of the students will carry out the micro lecture in the Dongmen Patriotism Education Square, to guide the young students to unswervingly listen to the Party, and strive to be ideal, responsible, hardworking. Through the establishment of Jiang Wei's Class, we will continuously enhance the cohesion, centripetal force and combat effectiveness of the class organization, strive to enhance the vitality, appeal and attraction of ideological and political education, and comprehensively train students to love the Party and the country, love the school, and enjoy the all-round development of moral, intellectual, physical, beauty and labor.

3. Conclusion

The patriotism education into the school education teaching process, in the process of education teaching inheritance red gene, carry forward the spirit of patriotism, to ensure that students are socialist qualified builders and reliable successors, to consolidate and develop the socialist system with Chinese characteristics, for the reform and opening up and socialist modernization construction service”.
